(Deemed to be University under section 3 of UGC Act, 1956)

LETTER OF RECOMMENDATION

I am writing to recommend Darsh Soni, a B.Tech Computer Science student at Vellore Institute of Technology, Chennai. I teach him the course Sensors Actuators, and Signal Conditioning, and I observe that he is very active in class and shows genuine curiosity toward the subject.

Darsh is also working under my guidance on a patent titled Railway Crack, Blockage, and Vibration Monitoring System. He approaches this work with sincerity and maintains a strong interest throughout the process. He is keen to understand the concepts involved and shows a responsible attitude toward his work.

Based on my experience teaching and mentoring him, I recommend Darsh Soni with confidence and believe he will perform well in his future academic journey.
