EDUCATION

Degree/Certificate	Institute/Board	Year	CGPA
B.Tech. (CSE with spec. in AI and Robotics)	Vellore Institute of Technology (VIT), Chennai	2024 – 28	8.24/10 (3 rd sem)

WORK EXPERIENCE

AI Research Intern <i>Centre of Cyber Security and Physical Systems, VIT Chennai</i> - Working on real-time glacier displacement prediction using ML algorithms under Dr. Manas Ranjan Prusty. - Involved in research, data analysis, and model development.	May – Aug 2026
Space Tech Intern <i>Bharat Space Education Research Centre (BSERC), Indian Space Labs, IIT Madras</i> Worked on drone systems, PCB design, Can Sat / Cube Sat concepts, GIS, and rocketry-related technologies.	Jan – Mar 2026
Google Student Ambassador (GSA) <i>VIT Chennai (Sole Representative)</i> Acted as the primary liaison between Google and 34,000+ students; led campus workshops on Generative AI.	Aug – Dec 2025
Open Source Contributor <i>Girl Script Summer of Code (GSSoC)</i> Merged 24+ Pull Requests in competitive repos; maintained 4 projects	Jul – Oct 2025
Team Lead <i>French Club, VIT Chennai</i> Led and coordinated club events and activities.	Jul – Oct 2025

RESEARCH & TECHNICAL PROJECTS

Multi-Stage NL to ER Diagram & SQL Generation System <i>Google ADK, Agentic AI, Multi-Agent Systems Research (Under Examination)</i> - Developed an agentic AI framework to convert natural language requirements into ER diagrams and multiple language SQL schemas. - Implementing multi-stage workflows involving ambiguity detection, schema refinement, and SQL generation. - Research focuses on multimodal schema understanding and database automation pipelines.	Live GitHub
AI and Multi-Sensor based Railway Track Crack, Vibration and Obstacle Type Detection System <i>Hardware Prototyping, OpenCV, YOLO Patent Application Filed (Under Examination)</i> - Designed and developed a hardware prototype using MPU6050, IR, and ultrasonic sensors for railway crack, obstacle, and vibration detection. - Contributed to ML-based detection workflows and patent documentation for intelligent railway safety systems.	GitHub
Darsh Archive: Personal Portfolio <i>SvelteKit, MERN, UI/UX Design</i> - Designed and developed a fully responsive retro-inspired developer portfolio using SvelteKit framework. - Implemented dynamic routing, multilingual support, custom UI components, and interactive UI.	Live
Oasis: Smart IoT Water Cooler System <i>Multi Sensor, IoT, Embedded Systems, Firebase, Live Monitoring</i> - Developed an IoT-enabled smart water cooler system with TDS monitoring, leak detection, and water level tracking. - Built as a hardware prototype for the Ideathon Hackathon with focus on water conservation and monitoring.	GitHub

TECHNICAL SKILLS

- Languages:** C, C++, Python, Java, JavaScript, HTML5, CSS, Bash
- AI / ML:** NumPy, Pandas, Matplotlib, Computer Vision, Pytorch, CNN
- Web & Frameworks:** React, Node.js, Express.js, SvelteKit, Vite, REST APIs, Firebase
- Databases:** Oracle SQL, MySQL, MongoDB
- Tools:** Docker, Git, MATLAB, CAD, Embedded Systems IDE, Photoshop, DaVinci Resolve

ACHIEVEMENTS & CERTIFICATIONS

- Hackathons:** 3rd/180+ (TechnoVIT CloudOps), 2nd/50+ (MediCode), and top 20 in 5 more hackathons
- Certifications:** AWS Solution Architecture (Deloitte), Data Analytics (Deloitte), Agentic AI, Google Gemini Certified Educator
